About Us

Marbu was founded in 1979 and it has been classified as a Class A contractor in Qatar since then. We are ranked by different government departments as one of the leading contractors in Qatar, especially in Design and Build contracts as well as fast track projects. We have executed many different types of projects such as sports facilities and stadium, hotels and clubs, commercial centers and mixed development offices, hospitals and clinics, public services buildings, all types of infrastructure projects such as road works, soft landscaping, drainage, water works, pumping stations and sewage treatment plants.

Our Mission, Our Vision

Our Mission

To build on our reputation for integrity, excellence, experience and leadership as Qatari finest construction company by implementing our philosophy

Our Vision

Marbu will continue to develop in order to respond to the challenges facing the construction industry and to meet as well as exceeding the engineering needs of the market.

Over the last few years, Qatar has been recognized as a country with a vision to provide leadership and collaboration in guiding and adopting environmentally sustainable practices for green building design and development to support the health and sustainability of environment, people and economic security for generations to come. In order to be in line with Qatar's vision, we have become a member of USGBC, a corporate member of GORD and a founder member of QGBC. In addition, a number of our engineers are certified as GSAS – CERTIFIED GREEN PROFESSIONAL.
